

CEIZE - BAD GYAL - OUT NOW

Ceize is back with his new sexy summer single '**Bad Gyal**', a banger that fuses sounds and rhythm to create the perfect summer vibe. Hailing from South London, Ceize has followed the release of his EP - '*In The Lab*', by presenting us with a song that is sure to get us ready for Carnival season.

Produced by DreTheGhost & Skully Proz, the 'Caribbean' vibe of this song matched with the catchy hook in the chorus, immediately ensures that this is a perfect addition to any summer playlist. Ceize writes songs with the aim to bring to life his Jamaican culture, as well as to bridge the gap between what is happening both the UK and the US at this current time. His influences include Wretch 32, PartyNextDoor and Preme. It is previous features on heavyweight radio shows such as DJ Ace on Radio 1Xtra, that have laid the foundation for '**Bad Gyal**' to be an important roadblock in setting the way for Ceize to reach new heights in the music scene.

'**Bad Gyal**' is now available on all streaming platforms, Ceize also plugs his music on the streets of London, where he meets people that follow his music as well as showcasing his music to the masses. Check out his social media for new music updates.
